

Welcome to the Wine List

I was very pleased to be invited by Kevin & Sophie in the run-up to the opening of Restaurant 27 to work alongside them and create a Wine List to suit their new venture.

My brief from the outset was to put together a List that not only complimented the menu in its style and content but that most importantly demonstrated quality throughout. The resulting list is without doubt one that has quality at every level and features fine examples of some classic appellations from Europe as well as some of the most exciting and sought after New World wines available.

I hope you enjoy reading through this Winter 2012 incarnation of the List and that you find something interesting and pleasurable to accompany your meal.

If you would like to, please ask a member of the front of house team for recommendations on matching your wine selection to your menu choice. Stuart and Simon of the 27 team have extensively tasted through the wines and menu and are more than happy to offer their advice.

Bon Appétit,

Russell Paine
